Description *Provide a short description of the event and its activities.*			
Target Audience The event engaged students from multiple schools in the Chrzanów district, aiming to educate younger			

generations on the Jewish heritage of their town. Local authorities, cultural institutions, and residents were also involved to foster a broader community reflection on historical memory.

Event Overview
The initiative "Przywracamy pamięć o niej" was designed to commemorate the Great Synagogue of Chrzanów, demolished in 1973. First, the students participated in a brief educational session aimed at assessing their understanding of Jewish culture and religion, while also providing key contextual information about the synagogue, ensuring they would approach the artistic activity with awareness and insight. Then, under the artistic guidance of visual artist Anna Schapiro, students symbolically marked the synagogue's boundaries using natural, eco-friendly earth pigments. This participatory art project sought to restore collective memory of the synagogue, emphasizing its historical significance as a center of Jewish religious and cultural life.

The marked outline of the synagogue will remain visible until naturally washed away by rain and wind, serving as a temporary but powerful visual reminder of Chrzanów's multicultural past.
